

## Surrogacy UK

### Checklist for Gold Membership: Intended Parents.

- This checklist should accompany your application form and supporting documentation.
- It details the information that you will need to submit when applying for Gold Membership.
- Please note that your application cannot be processed until all the required documentation has been received.
- We require the original documents. Please enclose a stamped self-addressed envelope so that the documents can be returned to you.

#### Notes:

##### Semen analysis

If you are considering **straight surrogacy**, this needs to be done **prior** to membership. However if you are only considering **host surrogacy**, it can be done at your IVF clinic and is **not necessary** prior to membership

##### STI testing

For couples considering **straight surrogacy**, STI testing must be done **prior** to membership, and both Intended Parents must be tested. If you are only considering **host surrogacy**, it can be done at your IVF clinic and is **not necessary** prior to membership.

**If testing is required**, the following tests should be completed:

- HIV
- Hepatitis B and C
- Chlamydia
- Gonorrhoea
- Syphilis

In addition, **Genital Herpes** can cause complications in pregnancy and childbirth; however a test is not readily available. If you have **ever been infected** with Genital Herpes, you **must** inform us at the time of making your application.

**Checklist:**

	Enclosed		To follow
