A very warm welcome to Surrogacy UK. Thank you for requesting the application pack to join the organisation as Members. This pack is for heterosexual couples and there is a separate one for same-sex couples.

Please Note: SUK policy now requires BOTH parents to be living together in the UK and not just domiciled. Supporting paperwork should demonstrate this.

The questions on the forms serve several purposes.

First, we need to obtain some **basic information** about you as a couple for our records.

Second, we need to ensure that you have had the **necessary tests and checks** required for surrogacy: these vary according to whether you are considering host surrogacy, straight surrogacy, or both.

Finally we ask some questions about your **hopes and expectations** for surrogacy. Don’t worry if you have not reached definitive answers to these questions. We include them here so you can start thinking about these issues together, and you can discuss them further at your face-to-face Surrogacy UK Information Session.

We do ask you to fill the forms in as accurately as possible. We hope you understand that if you are found to have deliberately withheld information, or have given false information, we may cancel your membership. In this case a refund of your membership fee will not be possible.

If there you feel there is not enough space to provide the answer you would like to give to a question, please just **number it** and provide your answer on a separate sheet.

The final part of the pack is a letter you should complete and give to your GP, to ask them for a medical report. Two copies are attached, and each of you should complete one.

Please return your completed forms to:

**Section 2: Eligibility for a Parental Order**

Only Intended Parents who will be eligible to apply for a Parental Order are able to join Surrogacy UK. You must fulfil ALL of the following criteria to obtain a Parental Order:

Are you in an “enduring” relationship with each other?  
Yes / No

Will one of you be the biological parent of the child?  
Yes / No

Is at least one of you domiciled in the UK?  
Yes / No

Are you both over 18 years old?  
Yes / No

---

**Section 3: Your family at the moment**

Do either of you have children already?  
Yes / No

- If ‘yes’, please answer the following questions:

How many children do you have?  
_______________________

How old are they?  
_______________________

Do the children live with you?  
Yes / No

Were there any complications during the pregnancy or delivery?  
Yes / No

- If yes, please give details:  
_____________________________

Do the children have any serious health problems?  
Yes / No

- If yes, please give details:  
_____________________________

- If yes, is the health problem heritable?  
Yes / No

Have Children and Families Social Services been involved with the children in any way?  
Yes / No

- If yes, please give details:  
_________________________________________________________________
_________________________________________________________________
Section 4: About having children

Have you entered into a surrogacy relationship in the past? Yes / No

-If yes, please give details:

___________________________________________________________________
___________________________________________________________________

Are you currently trying to have children by any other means, for example adoption? Yes / No

-If yes, please give details:

___________________________________________________________________

Are you currently trying to form a surrogacy relationship through any means other than Surrogacy UK? Yes / No

-If yes, please give details:

___________________________________________________________________

Please tell us in outline why each of you want to be parents:
___________________________________________________________________
___________________________________________________________________
___________________________________________________________________
___________________________________________________________________

Why have you decided that surrogacy is the best way for you to have children? Please include any known medical reasons why you cannot have children any other way:
___________________________________________________________________
___________________________________________________________________
___________________________________________________________________
___________________________________________________________________

Please describe any attempts you have made as a couple to become pregnant in the past:
___________________________________________________________________
___________________________________________________________________
___________________________________________________________________
___________________________________________________________________

Do you both agree with the decision to use surrogacy to have children?
___________________________________________________________________
___________________________________________________________________
___________________________________________________________________

Version: July 2014
How do you think having children may affect your relationship and your lifestyle?
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Please both describe your pastimes and interests:
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Section 5: Social support, medical history, and lifestyle

a) Intended Father and Intended Mother

Have you told your friends about your plans to have a child through surrogacy?  Yes / No

-If so, how did they respond?
________________________________________________________________________
________________________________________________________________________

-If not, when will you tell them?
________________________________________________________________________

Please describe the support you will have from your friends once the baby is born:
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Have you told your family about your plans to have a child through surrogacy?  Yes / No

-If so, how did they respond?
________________________________________________________________________

-If not, when will you tell them?
________________________________________________________________________

Please describe the support you will have from your family once the baby is born:
________________________________________________________________________
________________________________________________________________________
When are you intending to tell your employers about your plans?

What period of leave are you both hoping to take from work once the baby is born? Do you know your employers’ positions on this?

Have you told your GP about your plans to have a child through surrogacy? Yes / No

- If so, how did he / she respond?
- If not, when will you tell them?

b) Intended Father

What is your height? 

What is your weight? 

Do you smoke? Yes / No

- If so, how many per day? 

Would you be prepared to stop smoking to improve your sperm quality? Yes / No / NA

Do you intend to stop smoking once the baby is born? Yes / No / NA

Many Surrogate Mothers will not work with Intended Parents who smoke: would you be willing to stop smoking to improve the chances of meeting a Surrogate? Yes / No / NA

Do you drink alcohol? Yes / No

- If so, how many units per week? 

Version: July 2014
Would you be willing to reduce the amount of alcohol you drink to improve your sperm quality?  
Yes / No / NA

Have you ever used recreational drugs?  
Yes / No

- If so, please give details:

Do you have any chronic health problems?  
Yes / No

- If so, please describe in detail, and describe the impact that these conditions have on your day-to-day life:

Have you had any serious health problems in the past?  
Yes / No

- If so, please describe in detail:

Do you take any prescribed medication?  
Yes / No

- If so, what is the medication?

Have you ever been refused insurance because of your health, or had any exclusions or conditions applied to an insurance policy?  
Yes / No

Please list any illnesses that run in your family:

Please note that if you have any serious health problems now or in the past, or if there are any serious health problems that run in your family, we will need a letter from your doctor. The letter will need to outline the nature and impact of these problems, and comment on whether the conditions will affect your ability to father and raise a child.

When your Surrogate Mother becomes pregnant, you will be required to update your will and obtain life insurance to provide for your child in the event of your death.

Do you have an up-to-date will?  
Yes / No

Do you currently have adequate life insurance?  
Yes / No

c) Intended Mother

What is your height?  
_____________________

What is your weight?  
_____________________

Version: July 2014
Do you smoke? Yes / No

-If so, how many per day? ______________________

Do you intend to stop smoking once the baby is born? Yes / No / NA

Section 6: Criminal convictions

Intended Father
Do you have any criminal convictions?  
Yes / No

-If so, please describe in detail: __________________________________________________________
  __________________________________________________________
  __________________________________________________________

Intended Mother
Do you have any criminal convictions?  
Yes / No

-If so, please describe in detail: __________________________________________________________
  __________________________________________________________
  __________________________________________________________

Section 7: Straight Surrogacy

Please complete this section only if you are considering straight surrogacy

You should consider the following points:

Inseminations:

- If you chose to do your inseminations at an IVF clinic, you will have to fulfil their requirements for the use of quarantined semen (see the section on Host Surrogacy for details)

Semen analysis:

- Some GPs are willing and able to arrange this on the NHS; others will suggest you use a private IVF clinic. In both cases we recommend asking for an additional Mixed Agglutination Reaction (MAR) test on the semen sample.
Sexual health checks:

- Intended Fathers require STI checks before membership, and again prior to starting inseminations. In some cases, the Intended Mother may be required to have STI checks prior to starting inseminations as well. Please see the separate "Welcome to Surrogacy UK for Intended Parents" document, where you will also find a list of the required tests.

**Intended Father**

Have you had a semen analysis? Yes / No

Have you had a Cystic Fibrosis carrier test? Yes / No

- This is a common and serious genetic disorder, and 1 in 25 people in the UK are carriers. If both you and the biological mother are carriers there is a 1 in 4 chance of the child being affected.

Have you had a Tay Sachs carrier test? (people of Jewish heritage only) Yes / No

Have you had a Beta-Thalassaemia carrier test? Yes / No
(people of African, Caribbean, Middle-Eastern, and Mediterranean heritage only)

Have you had a Sickle Cell carrier test? Yes / No
(people of African, Caribbean, Middle-Eastern, and Mediterranean heritage only)

Have you had a Cytomegalovirus (CMV) test? Yes / No
- If so, what was the result? Positive / Negative

Where would you hope to perform inseminations?

- This is most commonly done in the Surrogate’s own home, but could also be in a fertility clinic, or another place that you have agreed with the Surrogate Mother.

________________________________________________________________________

How often would you be willing and able to perform inseminations each month?

________________________________________________________________________

- Please note that 2-3 inseminations per month are recommended, each around 24 hours apart.

How many months of inseminations would you be willing to try?

________________________________________________________________________

- Please note that a maximum of 6 months is recommended, after which all parties can consider the available options.
Are you prepared to make any necessary lifestyle changes to improve the quality of your sperm? This may include changes to your diet, stopping smoking, reducing the amount of alcohol you drink, and taking vitamin supplements.  

Yes / No

Would you both plan to attend inseminations together?  

Yes / No  

-Please note that some Surrogate Mothers would only feel comfortable carrying out an insemination if the Intended Mother accompanies the Intended Father.

Section 8: Host surrogacy

Please complete this section only if you are considering host surrogacy.

You should consider the following points:

Semen analysis:

- Your IVF clinic can perform the semen analysis, or it may be possible to have this organised on the NHS.
- We recommend asking for an additional Mixed Agglutination Reaction (MAR) test on the semen sample

Quarantine:

- A six month quarantine period is usually required prior to transferring embryos to your Surrogate, although some clinics do not insist on this.
- If you are going to use a quarantine period, the six months can either apply to frozen semen, or frozen embryos.
- In the first case, embryos created using quarantined sperm would be available for use immediately.
- In the second case, the embryos would need to be frozen and could not be used for six months

Sexual health checks:

- If you are only considering host surrogacy, you do not need to have your health tests completed before joining SUK
- Some clinics will insist that both of you have sexual health tests. Your clinic can arrange these tests, or to save money it may be possible to have them done on the NHS, either via your GP, or via your local sexual health clinic
- Sexual health tests usually have to be performed both before and after the quarantine period
- The tests required are listed in the separate “Welcome to Surrogacy UK for Intended Parents” document
a) **Intended Father and Intended Mother**

Are you already registered with an IVF clinic? Yes / No

- If yes, which? __________________________________________

Would you consider moving clinics in order to have treatment closer to your Surrogate mother? Yes / No

Do you have sperm frozen in an IVF clinic? Yes / No

- If so, when was it frozen? __________________________________

Have you attempted egg collection in the past? Yes / No

- If so, please describe the outcomes of the treatment:
  _________________________________________________________
  _________________________________________________________
  _________________________________________________________
  _________________________________________________________

Do you have embryos frozen in an IVF clinic? Yes / No

- If yes, when were they frozen? ______________________________

b) **Intended father**

Have you had a semen analysis? Yes / No

Have you had a Mixed Agglutination Reaction (MAR) test on the semen sample? Yes / No

Have you had a Cystic Fibrosis carrier test? Yes / No

  - This is a common and serious genetic disorder, and 1 in 25 people in the UK are carriers. If both you and the biological mother are carriers there is a 1 in 4 chance of the child being affected.

Have you had a Tay Sachs carrier test? (people of Jewish heritage only) Yes / No
Have you had a Beta-Thalassaemia carrier test?  
(people of African, Caribbean, Middle-Eastern, and Mediterranean heritage only)  
Yes / No

Have you had a Sickle Cell carrier test?  
(people of African, Caribbean, Middle-Eastern, and Mediterranean heritage only)  
Yes / No

Have you had a Cytomegalovirus (CMV) test?  
-If so, what was the result?  
Positive / Negative

c) **Intended Mother**

Have you had a Cystic Fibrosis carrier test?  
Yes / No

-This is a common and serious genetic disorder, and 1 in 25 people in the UK are carriers. If both you and the biological mother are carriers there is a 1 in 4 chance of the child being affected.

Have you had a Tay Sachs carrier test? (people of Jewish heritage only)  
Yes / No

Have you had a Beta-Thalassaemia carrier test?  
(people of African, Caribbean, Middle-Eastern, and Mediterranean heritage only)  
Yes / No

Have you had a Sickle Cell carrier test?  
(people of African, Caribbean, Middle-Eastern, and Mediterranean heritage only)  
Yes / No

Have you had a Cytomegalovirus (CMV) test?  
-If so, what was the result?  
Positive / Negative

**Section 9: Expectations and preferences for your surrogacy relationship**

The questions in this section are intended to make you consider your hopes and expectations for a surrogacy relationship. You don’t have to provide definitive answers, and the issues will be discussed in detail at your Information Session. Please indicate below if an answer is either something you feel very strongly, or something you remain unsure about.

A pregnant woman’s lifestyle choices can affect an unborn child. It can be difficult for Intended Parents to accept that they have little control over the Surrogate Mother’s behaviour during this time.

Please indicate whether you would be prepared to work with a Surrogate Mother who:
- Smokes before conception  
  Yes / No

- Smokes at all during pregnancy  
  Yes / No

- Drinks alcohol before conception  
  Yes / No

- Drinks alcohol at all during pregnancy  
  Yes / No

- Is obese  
  Yes / No

- Has strong religious convictions  
  Yes / No
  (please bear in mind that some religious convictions may prevent a Surrogate Mother from accepting certain medical procedures, such as a Termination of Pregnancy, or a blood transfusion)

- Has not completed her family  
  Yes / No

You can add any comments about the above questions here:
_________________________________________________________________________
_________________________________________________________________________
_________________________________________________________________________
_________________________________________________________________________

What age-range for a Surrogate Mother you would be prepared to work with?
_________________________________________________________________________
_________________________________________________________________________

Please describe the relationship that you would hope to have with your Surrogate while trying to conceive, during the pregnancy, and in the longer term.
_________________________________________________________________________
_________________________________________________________________________
_________________________________________________________________________
_________________________________________________________________________

What is the maximum distance from your home that you would like your Surrogate to live?
_________________________________________________________________________

-Bear in mind that while you may initially think that distance is no object, long journeys might reduce the chances of you having a lasting friendship. Bear in mind also the implications for inseminations in straight surrogacy, and for attending antenatal scans during the pregnancy.
During the pregnancy:

Would you expect the Surrogate Mother to have all recommended scans and tests?  
Yes / No

Would you ask the Surrogate Mother to have any extra scans or blood tests that you would pay for privately?  
Yes / No

Would you aim to attend all scans and antenatal appointments that the Surrogate Mother attends?  
Yes / No

Please describe any circumstances in which you would want the Surrogate Mother to undergo invasive diagnostic tests such as amniocentesis:
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Are there any circumstances in which you may ask the Surrogate Mother to terminate the pregnancy?  
Yes / No

-If so, please outline them and the upper time limit when you would consider this.
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Would you be prepared to work with a Surrogate Mother whose views substantially differ from your own on the above questions?  
Yes / No

Broadly, are you both in agreement with your answers to the above questions?  
Yes / No

-If not, please outline any differences here.
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Would you hope to be present at the birth, if the Surrogate Mother agrees to this?  
Yes / No

Would you be happy if the Surrogate Mother wanted to hold the baby?  
Yes / No
Section 10: Expenses

Please confirm that you understand it is illegal to give any payment to the Surrogate Mother or her family other than reasonable expenses Yes / No

Please confirm your understanding that in SUK such payments should never be expected, asked for, or offered Yes / No

Please confirm that you will pay all reasonable expenses incurred by the Surrogate Mother in your surrogacy journey. This includes all expenses incurred while you are getting to know one another, while trying to conceive, during the pregnancy, and in the postnatal period. This would also include the costs for any professional counselling that the Surrogate may require in connection to your surrogacy journey Yes / No

Please confirm that you will pay expenses incurred before conception on an ad-hoc basis, and during the pregnancy on a monthly basis, usually between 5-10% per month, with the remainder once the baby is born Yes / No

Please confirm that you accept Surrogacy UK is not involved in paying, transferring, receiving, or enforcing these payments, and that any expenses will be transferred directly between the Intended Parents and the Surrogate Mother Yes / No

Please indicate the total amount of expenses you would be able to afford, excluding any treatment costs payable to a fertility clinic:
____________________________________________________________________________________

Section 11: Paperwork

Do you both consent for Surrogacy UK to communicate with your GP, medical specialist, or fertility clinic, if they contact us directly? Yes / No

-Please note that SUK would not do this without contacting you first.

If the Surrogate Mother is unmarried, will the biological father put his name on the birth certificate? Yes / No

Do you accept that if the Surrogate Mother is married, her partner’s name will be recorded on the birth certificate? Yes / No

Are you intending to apply for a Parental Order when the baby is aged between 6 weeks and 6 months? Yes / No

Version: July 2014
Will you be willing to meet with a Parental Order Reporter as part of this process?  
Yes / No

Would you be prepared to take a paternity test if the court requested it?  
Yes / No

---

**Section 12: Media**

Surrogacy UK actively seeks media coverage to attract new members and encourage positive attitudes towards surrogacy. Would you be prepared to take part in any activities to raise awareness of the organisation?  
Yes / No

- You are under no obligation to take part, and can change your mind at any time.
Section 13: Your Information Session

Once your application pack has been received, the next step will be your face-to-face Information Session. Please indicate which of the following locations you would prefer:

- Southampton / Bournemouth, SO41
- Hull and Yorkshire, HU5
- Portsmouth, PO4
- Bristol, BS4
- Northampton, NN4
- Preston, PR4
- Talsarnau, LL47
- Lanarkshire, Scotland, ML2
- Derbyshire, DE4
- West Midlands, B72
- Swansea, SA5
- Herefordshire, HR9
- Cambridge, CB7
- Norwich, NR7

It may also be possible, at additional cost, to have the information session in your own home. Please email membership.secretary@surrogacyuk.org for further details.

Please indicate the days (Mondays to Fridays only) and the times which would be most convenient for you:
Section 14: Declaration

We, the undersigned, have read and understood this form. We have completed it to the best of our knowledge and ability and have not knowingly given any false information. We understand that if we have knowingly given false information our membership with Surrogacy UK may be terminated with immediate effect.

We understand that we may cancel our membership following the information session if we choose to, with a refund of the membership fee minus an administration charge.

We agree that Surrogacy UK or anyone acting on its behalf is not liable for any costs, claims, damages or demands howsoever arising from any Surrogacy Arrangement that we undertake or purport to enter into.

We acknowledge that Surrogacy UK does not perform introductions between Intended Parents and potential Surrogates, or seek to match members with each other for any purpose. We accept full responsibility for the consequences of any relationships founded with other Surrogacy UK members. We rely solely upon enquiries we ourselves have undertaken as to the suitability, medical fitness and past character of other Surrogacy UK members we form relationships with.

We understand that Surrogacy UK bears no responsibility whatsoever for any misrepresentation or omissions made at any time by its members, whether oral or in writing.

We understand that Surrogacy UK shall not be liable in respect of any claim for bodily injury caused to any person as a result of receiving medical advice, diagnosis, treatment or assistance or the administration of drugs.

We acknowledge that Surrogacy UK shall not be liable in respect of any liability arising out of the death, disease or illness of or bodily injury to any other person or loss of or damage to property.

We undertake not to talk to the media regarding Surrogacy UK or the Arrangement entered into without all parties’ prior knowledge and consent.

We have read and promise to abide by the Surrogacy UK Policies.

Checklist

- This checklist should accompany your application form and supporting documentation.
- It details the information that you will need to submit when applying for Membership.
- Please note that your application cannot be processed until all the required documentation has been received.
- We require the original documents. Please enclose a stamped self-addressed envelope so that the documents can be returned to you.

Dear GP,

Your patient:  
Name: __________________________
Date of birth: __________________________
Address: __________________________

has applied to join Surrogacy UK in the hope of having a child through Surrogacy.

He/she will be using host surrogacy / straight surrogacy (Applicant to delete as applicable).

The process of going through surrogacy is challenging both mentally and physically, and the interests of the potential child are paramount. It is only suitable when all other options for having a baby have been exhausted, or pregnancy is not medically advisable for the couple.

For this reason we would like to request a report detailing any relevant medical history. This should include the medical reasons why the couple are hoping to have a child through surrogacy.

If the patient has any significant past medical history, please indicate if you feel a report from a specialist, or any further specialist assessment, may be necessary.

If you require any further information there is a ‘Guide To Surrogacy For Health Professionals’ available to download at www.surrogacyuk.org. Or you can contact us at membership.secretary@surrogacyuk.org.

The patient will collect the report from you, and forward it to Surrogacy UK with their application forms.

Many thanks for your help.

Surrogacy UK.

CONSENT: I, __________________________, give consent for my GP to complete the medical report requested above, giving full details of all information that he or she considers relevant for my application to join Surrogacy UK.

Signature: __________________________  Date: __________________________

For this reason we would like to request a report detailing any relevant medical history. This should include the medical reasons why the couple are hoping to have a child through surrogacy.

If the patient has any significant past medical history, please indicate if you feel a report from a specialist, or any further specialist assessment, may be necessary.

If you require any further information there is a ‘Guide To Surrogacy For Health Professionals’ available to download at www.surrogacyuk.org. Or you can contact us at membership.secretary@surrogacyuk.org.

The patient will collect the report from you, and forward it to Surrogacy UK with their application forms.

Many thanks for your help.

Surrogacy UK.

CONSENT: I, ____________________________, give consent for my GP to complete the medical report requested above, giving full details of all information that he or she considers relevant for my application to join Surrogacy UK.
